

Global Communication Semiconductors, LLC

“Quality First”

Our vision is to be a leading III-V compound semi conductor foundry service provider. Our policy objectives are to achieve total customer satisfaction and high ROI by providing:

- **Highest product quality/reliability**
- **Most cost-effective solutions**
- **Rapid turn-around services**

Our business philosophy is “Quality First” for our customers. Global Communication Semiconductors is committed to continuous improvements to meet or exceed the needs of our customers. Our commitment emanates from our management team and is founded on the following seven principals:

- **Customers Drive Quality and Quality First**
- **Quality is built into our product from the start**
- **Everything is treated as a process**
- **Everyone is involved in the process**
- **Continuously improve**
- **Using facts and data to solve problems**
- **Leading through active participation**

**Brian Ann
