

Global Communication Semiconductors, LLC

“Quality First”

Our vision is to be a leading compound semiconductor foundry service provider. Our objective is to achieve total customer satisfaction by providing the best-in-class products and services to customers worldwide.

Our business philosophy is “Quality First” for our customers and in all aspects of our business and operation. Our commitment to quality emanates from everyone at Global Communication Semiconductors and is founded on the following principles:

- Quality First
- Quality in Everything by Everyone
- Continuous Improvement
